## ACCEPTANCE NOW ON FILE

### Council Working to End Water Problem

## $2000 PAID COMPANY

### Court Ordered This Payment on Account—Has no Reference to Hydrant Rental Rates—Humane Officer to Receive Pay.

The adjourned session of council was called to order Tuesday night at 8:25, after an hour's wait to get the appropriation ordinance in shape. All members were present except Beardmore, who is out of the city. On the introduction of the appropriation ordinance, owing to a mixup in the drafting of the ordinance, it was referred back to the appropriation committee.

A bill of $90 from C. H. Johnson for services as humane officer from February 15 to July 1 at $20 per month was read by the clerk, and on the understanding that the humane officer's time should date from the time the mayor had approved the appointment the bill was referred to the claims committee.

At 8:30 the clerk read the letter of acceptance from the Salem Waterworks Co., in which it agreed to the proposition recently made by council, a copy of which was published in The News of Monday. This was the matter to which all had been looking forward, and really was the object of the adjourned session. After a moment's wait, during which an expectant hush prevailed throughout the council chamber, Councilman McArtor arose, and at recognition from the chair, said:

"Mr. President, I move that the communication be accepted and filed." Councilman Gager gave a prompt second, and President Turner asked for remarks. Councilman Baker took exception to the use of the word "accepted" on the ground that it might allow of future complications ,and he suggested that it be omitted from the motion. With the consent of the second, McArtor altered the motion, and on roll-call it passed, all voting yes, and the acceptance was filed. A court order was read by Clerk Scott, ordering council to make a partial payment of $2,000 to the Salem Water Works Co. on or before July 15, 1908, same to apply on account, without prejudice to either party. McArtor wanted to know whether this was the full amount due the water company, and if not what the full amount was. Mr. Andrews of Cleveland, representing the water company, stated that the calculated amount of water rent due from the city for municipal purposes was over $2,300. Baker moved and Cavanaugh seconded a resolution that the $2,000 be paid. In answer to McArtor's inquiries Solicitor Ramsey stated that three readings were not necessary, and that there was no necessity for inserting any rates in the resolution, as it was merely to be "on account." This latter was in answer to McArtor's query as to whether the water company could bring in a claim for a higher rental than $25 per fire hydrant. The resolution was put to vote and passed, all voting yes. Without further ado or business council adjourned until the next regular meeting. After the session closed arrangements were made for council as a whole to meet Wednesday evening with Mr. Andrews, at which time the details of council's proposition and a complete arrangement of the new schedule of rates and the new franchise will be entered into for final consumation. This will, no doubt, close up the long-drawn-out water differences and the wearisome 18 months dispute will be ended.

## ROBERT GALVIN ESTATE LEFT TO HIS CHILDREN

Lisbon, July 15.— The will of the late Robert Galvin of Wellsville has been presented and admitted to probate, and W. A. Snediker and Nellie G. Burnett have qualified as executors. Bond was excused by the will. Appraisers, H. P. Andrews, H. B. Nicholson and John Patterson.

The deceased bequeaths to Hugh A. Fraser $500 in consideration of the beneficiary having deeded to him three feet of lot No. 7 in Wells's sub-division adjoining the testator's homestead and for other considerations. To his granddaughter, Sarah T. Fraser, the decedent bequeaths lot No. 9 in the second addition of Thomas H. Silver to Wellsville. The residue of the estate, including life insurance, is bequeathed to his daughter, Nellie G. Burnett, and his granddaughter, Sarah Fraser, to be divided equally between them.

### Grant Not Heard From

William Grant, against whom a charge of shooting with intent to kill was entered by Warren Howe through his attorney, J. H. Scott, has not been heard from since the day he was discharged by the Buckeye Engine Co. after precipitating the trouble between the striking molders and strikebreakers last Friday night.

## *Near-New Jail Now The Plan*

Lisbon, July 15.—Bids were inserted in several papers over the county on Tuesday for the remodeling of the cell rooms, dwelling apartments, heating apparatus, sewer and sanitary systems of the county jail. The county commissioners have been considering the plans for remodeling the jail for some time, and intend making this one of the best in the state. The cost dare not exceed $15,000, and work will begin as soon as the bids are let.

It is recalled in this connection that the voters at the last election turned down a proposition to build a new jail. The commissioners, recalling the old adage that there are more ways to kill a dog than choking him on butter, have apparently determined to provide a practically new jail anyway, by making elaborate repairs on the old structure. In much the same manner, Canton some years ago got a new court house, when the people refused to authorizze the expenditure for an out-and-out new building.

## CLEVELAND BOYS ON A LONG HIKE

George Mueller and R. G. Grossman two Cleveland lads, passed through Salem Wednesday on a hike they are making from Cleveland to Irondale. They left Cleveland Monday, and expect to reach their destination Thursday evening. The boys are suitably equipped for long hiking, wearing khaki trousers, leggings, soft shirts and campaign hats, and each carrying a blanket-roll after the regulation "Williams" style. They sleep in the open, and from their appearance and report, the trip is being hugely enjoyed.

## SALEM HIGH OPENS FOOT BALL SEASON AT CANTON

Prof. C. J. Bowman, who has charge of the management of athletics at the Canton High school, states that football and basketball will be run on a different system this fall and winter. than has been in effect heretofore. The most radical change will be the cutting down the schedules of both the basketball and football teams. Prof. Bowman says too many games almost killed both sports last winter and the schedules will be cut down to almost half of what they were last year. The football season will open on the last Saturday of September when Salem High will be at Canton for a game.

### Tourists Bound for Philadelphia.

Harrisburg, July 15.—The automobiles entered in the Glidden tour left here for Philadelphia yesterday. The start was made at 7 a. m. The cars go to Philadelphia by way of Mt. Joy and Lancaster, whence they will go to Reading and thence down the Schuylkill valley. Three cars were withdrawn and three did not start.

## BURNED WHEN LAMP EXPLODED

### Aged Lisbon Woman Met Horrible Death

## FOUND BY HER SISTER

### Mrs. Susan Clark Fergeson the Victim of a Distressing Accident at the Old Clark Home in Lisbon on Tuesday Night.

Lisbon, July 15.—Mrs. Susan Clark Fergeson, aged 78, suffered a horrible death last night when a lamp in her room exploded, burning her face and body to a crisp.

Mrs. Fergeson, who lived with her sister, Miss Carrie Clark, on South Market street, had been in the habit of retiring very early. Last night she went to her room about 7 o'clock, and was followed a few minutes later by her sister, who stopped at the door and said good-night. Nothing was heard during the night by Miss Clark, who is also an aged lady, and this morning when she went to call her sister she found her lying on the floor burned to death. The lamp must have exploded during the early part of the night, because the unfortunate woman had not yet undressed, her clothing being burned from the body. The room was damaged but slightly, and how the house was saved is a mystery. The fire was still smoldering in the flooring when neighbors went in this morning. The house is one of the oldest in Lisbon, and is built of heavy and hard timber, which probably accounts for the slow progress of the fire.

Mrs. Fergeson was born in Lisbon January 13, 1831. She was the daughter of Judge Samuel F. Clark, one of the best and widest known common pleas judges that ever sat on this bench. The deceased was married in 1868 to Curry Fergeson. The husband preceded his wife in death 20 years ago. The unfortunate woman was a lifelong member of the Methodist church. She leaves, besides her sister here, one brother, Charles, of Steubenville.

The funeral will be held Saturday from the home, and will be private.

## SALEM SOON TO HAVE A NEW SHOE STORE

A new shoe store will be opened about September by C. M. Nusbaum and James McNeelan at 61 East Main street, formerly occupied by M. L. R. Howald's jewelry store. The room will be remodeled to suit the convenience of the new firm and handsomely finished in mission style furniture.

Mr. Nusbaum has had over 18 years experience in the shoe business in Canton, Ohio, whence he came to Salem a short time ago, and now resides on Garfield avenue. He has made a great many friends in the short time he has been here and being an alto saxaphone player of exceptional ability will become identified with the Salem band.

James McNeelan, the other member of the firm, has tendered his resignation to the Silver Manufacturing Co., where he has been foreman in the machine shop for a number of years. He will be succeeded by Arthur Harwood, the present foreman of the tool room at the same plant. Mr. McNeelan is a prominent member of the board of public service and was at one time a member of the plumbing firm of McNeelan & Vickers. The new firm will make a trip East at an early date for the purpose of placing their orders for the new stock of shoes.

## SALEM TO RECEIVE $4,705.24 FROM SALOON TAX FOR SIX MONTHS

Lisbon, July 15.—The Dow tax settlement sheet for the recent collection has been prepared at the county auditor's office and the total collection is $23,981.85. This is divided as follows: State general revenue fund, $6,480.59; municipal police, $5,449; municipal general fund, $5,449; county poor, $4,320.40. The net amount received by the different corporations from the collection is as follows: New Waterford, $564.74; Lisbon, $1,905.22; Washingtonville, $238.16; Leetonia, $2,871.69; Hanoverton, $662.23; Salem $4,705.24.

The corporation of Wellsville will be required to pay from the general city fund to the undivided liquor tax fund, $146.30, necessary to meet that city's proportion of a refunder issued since last settlement.

## END OF ARTIFICIAL GAS IN SALEM DRAWS NEAR

George Heard and associates, who purchased and took possession of the Salem Gas Light Co.'s plant on June 1, on Wednesday discontinued the manufacture of artificial gas at the Depot street plant in accordance with the notices served on artificial gas consumers on June 15. Mr. McCune, the local manager of the Natural Gas Co. of W. Va., says that there will be enough artificial gas in the tanks to supply patrons who have not begun receiving natural gas until the first of next week, by which time all pipes will have been tested and consumers will be receiving natural gas without a break in the service.

The absorption of the artificial gas company and this last act in the passing of the old company recalls the bitter fight of several years ago between the old company and city council in which the franchise contention and "dollar gas" were as much discussed topics as the water question has been of recent months. Probably no other municipality of proportionate size has had greater experience with franchises for public utilities than Salem since the hum of progress veered toward her.

## ROOTERS AND TEAM MOVE ON SEBRING

Accompanied by several rooters the Salem team left on the 2:15 Stark Electric car Wednesday afternoon for Sebring, where they will open fire with their old rivals for the first time this season. The team intended to leave the city an hour later, but word from the Sebring team stated that the game would be called at 4 o'clock. No change will be made in the local lineup, and Phelan will do the twirling.

## JURORS DRAWN FOR APPROPRIATION CASE

Lisbon, July 15.—The following jurors were drawn late Tuesday afternoon to report in probate court next Monday morning at 10 o'clock for duty in the appropriation case of the Y. & O. R. Railway Co. vs. Evan McPherson, Alexander McDonald and others.

William McBane, Yellow Creek township; P. J. Cobourn, D. H. Bower, Wellsville; William C. Wallace; East Palestine; James Smith, John McQuillin, Franklin township; W. O. McCurdy, Madison township; Eli Blazy, Salineville; R. P. Trimble, W. D. Smith, E. L. Vickers, Salem; N. B. Butler, Perry township; W. A. Lyder, Elk Run township; Park Simison New Waterford; S. A. Wright, Fairfield township; Walter Neff, Salem township.

## JUDGE BILLINGSLEY IS HONORED AS DELEGATE

Lisbon, July 15.—Judge N. B. Billingsley of Lisbon, at the recent meeting of the Ohio State Bar association, was appointed one of the three delegates from the Ohio association to the annual meeting of the American Bar association, to be held in Seattle, Wash., the week of August 24.

Every state in the union is entitled to three delegates. Gen. Charles H. Grosvenor of Athens and Judge Frank Taggart of Wooster are the remaining delegates from Ohio. Judge Billingsley will probably attend the meeting at Seattle. His son, Horace, is connected with a law firm in that city.

### Has a New Buick.

R. W. Campbell, of the firm of Campbell & Rogers, is driving a new Buick automobile, which he Tuesday received from the factory.

## DR. MITCHELL TO LEAVE CLEVELAND

Drawn by a call from the most conspicuous Methodist church in America, Rev. Charles Bayard Mitchell, for the past seven years pastor of the First Methodist church, Cleveland, gave in his resignation Tuesday night.

Dr. Mitchell will go to St. James's church, Chicago, in September, the end of the conference year. He will succeed Dr. W. A. Quayle, who was elevated to the bishopric at the Baltimore general conference in May.

Dr. Mitchell during the seven years of his residence in Cleveland has been recognized as one of the religious leaders of Cleveland. A powerful and eloquent speaker, he has repeatedly thrown his eloquence and personality into denunciation of current evils. With wide outside interests, he was personally acquainted with the leaders of every sort of work in the city. He has been member and director of the Chamber of Commerce.

Dr. Mitchell has been recognized as one of the leaders of his denomination in the country. His name stood high in the balloting for bishop at the Baltimore conference in May. Before he went to Cleveland he was pastor of the Hennepin avenue church, Minneapolis, for five years.

Dr. Mitchell is an authority on boys' work and boys' clubs. He has written considerably on the subject and was appointed chairman of a commission by the general conference ten years ago. His report awakened widespread discussion.

The acquaintance of Dr. Mitchell was made by Salem people last month, when he delivered an able address before the graduating class of the Salem High school. He was at one time a student at Mt. Union college at Alliance.

### Alliance Was Easy

Salineville, July 15.—The Salineville baseball team defeated the fast Alliance team Tuesday afternoon in a one-sided game b ythe score of 4 to 2. Both pitchers did good work, but errors on the part of the Alliance team were responsible for their defeat. The score by innings:

| | | | | | | | | | | R. | H. | E. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Alliance | 0 | 0 | 1 | 0 | 0 | 0 | 1 | 0 | 0 | —2 | 8 | 4 |
| Salineville | 0 | 0 | 0 | 7 | 0 | 0 | 0 | 0 | 0 | —7 | 5 | 3 |

## PRELIMINARY TO CAMPAIGN

### Republican County Executive Committee Met Tuesday

## HILBERT SUPERVISOR

### Recommended for Reappointment on Election Board—Plans for an Active Campaign in Columbiana County Discussed—Audits to Be Made.

Lisbon, July 15.—At the first meeting of the newly appointed executive committee of the Republican central committee of Columbiana county, held yesterday afternoon, J. S. Hilbert of East Liverpool was recommended to succeed himself as deputy state supervisor of elections. Notice of the action of the committee was sent to the secretary of state and the appointment will soon be made.

The candidates for county offices having not yet been certified to the county board of elections, the chairman and secretary were authorized to file with the board certificates of nomination.

In behalf of the committee appointed to audit accounts of the secretary and the treasurer of the county central committee, James S. Hilbert, chairman of the special committee, said a report could not be made at this time. Secretary Hamilton requested that his accounts be audited for the full time he has served as secretary, and a like request was made by George E. Davidson, the retiring treasurer.

Charles S. Ward of East Palestine, George E. Davidson of East Liverpool and Charles E. Hamilton or Lisbon were appointed as the committee on rules, with instructions to revise the old rules and report at the next meeting. The matter of having new polls taken of the voters in every precinct in the county and arrangements for meetings and speakers for an active campaign in Columbiana county this fall were talked over and will be taken up for action when the state committee and the state bureau are heard from.

## YOUNGSTOWN BOYS WILL ENJOY OUT-DOOR LIFE

Youngstown, July 15. — Superintendent Steele of the Youngstown Boys' club and his party of campers will leave the city Monday for the fruit-growing district of Columbiana county. They will live out-doors until August 15 and the boys will earn the expenses of the camp by picking berries. The farmer near Lisbon who has agreed to give the Youngstown youths employment was in the city a day or so ago and completed arrangements with Mr. Steele.

About fifteen fortunate boys have already been selected for the experiment. If the plan of a self-supporting summer camp succeeds this summer Mr. Steele hopes that next year and thereafter he will be able to furnish an outing free to any number of boys who are willing to do a little work to pay their expenses.

### Bard Bros. Have Clever Act

Masters Earl and Paul Bard, sons of Mr. and Mrs. Irvin Bard of Alliance, appeared at the opening of a new vaudeville at the Nickleodeum theatre Tuesday evening. The lads have a clever vaudeville act, Earl appearing in vocal selections and Paul presenting a cake walk and clog dancing. They also render vocal duets and received a hearty welcome at the local theatre Tuesday evening, when every performance drew a packed house. The boys have appeared at Alliance theatres several times and are considering a number of offers for engagements in other cities.

### FAVORS YOUNGSTOWN.

Youngstown, July 15.—The Chamber of Commerce has received this message from Presidential Candidate Taft: "I am strongly in favor of opening the national campaign in Youngstown."

Here is a critical view of the presidential situation from Collier's, a nonpartisan journal, that expresses the lack of confidence which many feel in the Democratic nominee and the confidence felt in the Republican nominee: "One great advantage Mr. Taft carries with him into the present contest We believe that, in spite of the seething of discontent, and in spite of immigration, the American people still believe in the supremacy of law. They had in 1787 the opportunity to put final power in the hands of an executive, if they wished. They had the opportunity, also, to make the courts a set of mere puppets of the temporary popular mood, or to make the legislature supreme. They did none of these things. They founded courts which were to act irrespective of pressure from executive, legislature or populace. If the people of today wish to amend the constitution, they are free to do so, and to remove this power of the courts to stand between the permanent and temporary opinions of the masses. As long as we have courts, however, as the final arbiters of law it is folly to endeavor by short terms and by election, instead of by appointment, to make them popular in tone. Very likely, during the term of the next president, four members of the supreme court of the United States will be changed. Who will be likely to put upon that bench the higher grade of men—Mr. Bryan or Mr. Taft? That is one of the most important questions the electors must face between now and November. In the opinion of some of the most intelligent citizens, it is the most important question to be faced.

## UNHAPPINESS DISPELLED.

**Men and Women Unanimous About It.**

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

With the water question finally out of the way, further reference to rates seems unjust to readers, but it is hard to suppress a typographical smile at the state of confusion in the office of a local contemporary over the $12 minimum meter rate. In one breath this meter rate is declared "out of all proportion," and "without doubt will work a hardship to the small consumer." Why? Here is the answer that fairly sparkles with intellectual jewels: The small consumer "must pay an advanced rate of at least one dollar for his water, while the large consumer, whose rental under the flat rates would amount to $12 or more, may install a meter and thus reduce his water rent." And yet this $12 minimum meter rate is out of all proportion! Council is, apparently, scolded because it made the meter rates too high, for the satisfaction of a few meter users who are kicking, and then held up to scorn because it has given the large consumer an opportunity to save—although he must pay a higher rate per thousand gallons—by installing a meter. But it is pleasing to note the final concession: "However, council has given the matter thought for many months." Would that some others had followed council's example.

"Negroes Will Flock to Bryan's Standard" declares a big headline in a Democratic morning paper. Yes, possibly—when Boston goes Socialistic, when Irish Catholics praise the memory of the A. P. A., when the moon has turned to green cheese and when Henry Watterson has joined the Prohibitionists!

A Canton justice of the peace declares that he will devote a part of his time to adjusting and preventing neighborhood quarrels. He should be more correct and say that he may devote a part of his time to his other duties.

The man who proposed that the Prohibition party should adopt a platform containing but one plank probably desired one that the people would read.

Hardly necessary to ask Salem fans where the team's playing today.

## LIFE IN RAREFIED ATMOSPHERE

### Scientists Have Proved Limit to Which Human Beings May Ascend.

How high in the air can a man rise without dying? Twenty years ago it was thought that it would be impossible to breathe at an atmospheric altitude exceeding 8,000 meters (25,000 feet). It was supposed that a man would lose consciousness at 6,000 meters.

But Messrs. Behring and Suhring, at Strasbourg, went up in a balloon to a height of 10,000 meters (32,000 feet), the greatest height ever attained, but they were forced to inhale oxygen.

Strange to say, Prof. Mosso of Italy experimented on a theory that a man must respire oxygen with a strong proportion of carbonic acid if he would successfully fight the dangers of the rarefaction of air. It is said that the theory is correct.

A pupil of his repeated the experiment, not by going up in a balloon, but by shutting himself up in a bell, where, by means of a pump, a gradual increase of rarefaction was obtained. When the exhaustion of air reached a point at which the experimenter began to collapse, a specially devised arrangement sent into the bell a mixture of carbonic acid and oxygen, and he was immediately relieved.

In the experiment, the exhaustion finally attained equaled a height of 50,000 feet (14 1-2 kilometers). The experimenter said: "I could have resisted an even greater rarefaction, for my memory was clear and my movements were normal."

# DEATH'S SUMMONS CAME SUDDENLY

## EX-COMPTROLLER OF EQUITABLE LIFE ASSURANCE SOCIETY IS STRICKEN.

## HE WAS UNDER INDICTMENT

### On Charges of Forgery and Perjury—Was Prominent in Connection With Exposure of the "Yellow Dog" Fund.

New York, July 15.—Thomas D Jordan, former comptroller of the Equitable Life Assurance society, died suddenly in a downtown subway station Tuesday. Apoplexy was the cause. Mr. Jordan had parted from his son only a moment before and a messenger overtook the young man on the street and informed him of his father's death.

It was in the course of the Armstrong committee insurance investigation that Mr. Jordan's name came prominently before the public. It was brought out then that Jordan had secured loans aggregating $685,000 for himself and James W. Alexander, former president of the Equitable, from the Mercantile Trust Co. and that these loans had been covered up on the books of the company. This $685,000 came to be known as the "yellow dog" fund.

A desire was expressed by the Armstrong committee that Jordan appear before the committee and explain his financial management of the Equitable, but the process servers were unable to locate Mr. Jordan. His son was called before the committee and asked to tell where his father was. The young man said he did not know and when further questioned said he did not know whether his father was dead or alive.

It was after the Armstrong committee investigation had come to a close that Jordan put in an appearance. It was then learned that he had been in Europe. As a result of the disclosures made before the Armstrong committee the grand jury found 18 indictments for forgery and one for perjury against Jordan. Only recently Mr. Jordan appeared before Justice Goff to plead not guilty to the indictments. His trial was set for the fall.

### Water Wagon Made a Hit.

Columbus, O., July 15.—A majority of the 1,500 delegates to the Prohibition national convention and many more visitors are in the city. Escorting the delegations from the Union station to the hotels to which they were assigned, a decorated water wagon drawn by four white horses emblematic of the eight prohibition states of the Union and followed by a mule labelled "Missouri two-thirds dry" made a hit. There are 17 candidates for the presidential nomination.

### Suicided Under Burning Bed.

Punxsutawney, Pa., July 15.—After driving his wife from the house and then sending his two children to her with $1,500 in cash and the deed to his property, Stephen Joshua, a store proprietor of Wishaw, near here, saturated his bed with kerosene, set it ablaze and, crawling under it, fired three bullets into his head, dying almost instantly.

### Elevator Charges Are Illegal.

Washington, July 15.—In an opinion rendered by the interstate commerce commission Tuesday the payment to certain railroads of an elevation allowance of three-quarters of one cent per 100 pounds was held to be an unlawful discrimination and the carriers were ordered to discontinue on October 1 next such payments.

### Lightning Caused $200,000 Loss.

Philadelphia, July 15.—During an electrical storm which passed over Ogontz, a suburb, last night, the residence of George W. Elkins, son of the late William B. Elkins, the traction magnate, was struck by lightning and in the fire which ensued was totally destroyed. The loss is $200,000.

### Three Blackmailers Are Sentenced.

New Brunswick, N. J., July 15.—Twelve years' confinement at hard labor in the state prison was the sentence imposed Tuesday upon three Italians who were found guilty by a jury of attempting to levy $5,000 blackmail upon Rev. Augustine Bassori of Franklin Park.

### Can Makers Struck.

New Castle, Pa., July 15.—Three hundred employes of the American Can Co. struck Tuesday when Superintendent Ross refused to reinstate Herbert Green, manager of the packing department, who was discharged Monday.

### Postmen May Act as Notaries.

Washington, July 15.—Assistant Postmaster General Degraw has empowered rural letter carriers to act as notaries public, provided the functions of that office in no wise interfere with a carrier's duties as a rural carrier.

### The Elks' Convention.

Dallas, Tex., July 15.—Rush L. Holan of Colorado Springs was on Tuesday elected grand exalted ruler of the Elks. Los Angeles gets the 1909 convention.

# NAMED A STATE TICKET.

### Ohio Prohibitionists Nominate Aaron Watkins of Ada for Governor.

Columbus, O., July 15.—The following ticket was named by Ohio Prohibitionists in state convention Tuesday:

Governor—Aaron S. Watkins of Ada.

Lieutenant Governor—J. B. Martin Hamilton county.

Secretary of State—H. J. Haskell, Muskingum.

Auditor—Joseph R. Stratton, Columbiana.

Treasurer—J. H. Ford, Portage.

Attorney General—George S. Hawk Hamilton.

Supreme Judges—Mahlon Rauch Wayne; A. L. Talcott, Cuyahoga.

Clerk of Supreme Court—I. B. Miller, Darke.

Board of Public Works—Peter F. Wolfe, Athens; Abel A. Bostwick, Medina; A. J. Anderson, Warren.

Commissioner of Common Schools—Prof. R. C. Simpson, Lawrence.

For Dairy and Food Commissioner—Henry Prescott, Scioto.

United States Senator—E. J. Pinney, Cuyahoga.

The following national committeemen from Ohio were elected: John B. Martin, Hamilton county; Frank B. McCartney, Franklin county.

The nominations were all made without opposition, the only fight being for place on the national committee. There were four candidates—H. L. Peeke of Sandusky, John B. Martin of Cincinnati, Frank McCartney of Columbus and H. F. McLain of Ravenna. The promise to punish Peeke for his attack on the churches was made good, for he received but 51 votes. Rev. Mr. McLain received 84 votes, Mr. Martin 115 and Mr. McCartney 195.

Oliver W. Stewart of Chicago made an address, the purpose of which was the collection of funds.

"Who will give $100?" he asked.

"I will," shouted Mr. Martin of Cincinnati.

"So will I," shouted H. L. Peeke of Sandusky, the temporary chairman, and the convention cheered the man it had criticized on account of his keynote speech.

"I would have given you $100," said Carrie Nation, "if you had not voted down woman suffrage. Now I'll only give you $50."

"I'll give $100 because you did vote it down," was the answer to Mrs. Nation's announcement, this being made by T. A. Redfer of Bellaire.

The total collection was more than $1,200.

The platform adopted states that while it thinks that enforcement of prohibition is not possible, "except by a party in sympathy with the law," the Prohibitionists would "co-operate with other temperance forces" to get local temperance conditions. This was apparently a recommendation to work with the Anti-Saloon league, but the chairman of the resolutions committee said that this was not the case.

The Republican and Democratic parties are attacked for failing to recognize the liquor problem as a dominating question. The platform declares against class legislation infringing on popular rights; for injunction laws giving justice to all concerned; for the initiative and referendum as to franchises for public utilities; for election of United States senators by direct vote of the people; for restriction of immigration; for stringent divorce laws; for suffrage based on intelligence and morality.

Why Suffer from Piles?

## Important to Mail Subscribers

### New Ruling of Postmaster General Requires Payment in Advance.

The postmaster general has just issued an order which, in effect, compels the publishers of papers to stop a subscriber's paper, when the time for which it was paid has expired. Heretofore most publishers have continued to send the paper after the expiration of the time paid for, unless expressly ordered not to do so by the subscriber, and if the subscriber accepted it from the postoffice he was held liable for payment, as his acceptance of delivery was considered as an implied agreement to take it.

Under the new ruling the postmaster is not allowed to deliver papers to subscribers by mail, who have not expressly ordered their papers renewed, and the date printed upon the address label, must show that the subscriber is not in arrears, or the paper will not be delivered, unless the publisher affixes a one cent stamp to each delinquent copy.

The order went into effect on January 1, 1908, and we urge all who are now in arrears to remit as soon as possible.

ALL SUBSCRIBERS ARE HEREBY NOTIFIED THAT PAYMENT IN THE FUTURE MUST BE MADE IN ADVANCE.

The department has ordered that a publisher, who fails to comply with the order, will forfeit the second class postal privilege for his paper.

THE SALEM PUBLISHING CO.

LaGrippe

BRAZILIAN BALM kills the tough grip germ. In 27 years it has never lost a case; never let it run into pneumonia; nor left a grip-wreck behind. It is a world record.. Beware of quinine, morphine, (or opium in any form),.whisky, bromides, mercury, for they kill no germs, whether in tablets or prescriptions. They are dangerous and often fatal in grip. Every case of pneumonia; every death; every grip-wreck, has followed the use of such pernicious drugs. Take BRAZILIAN BALM and take it freely.. The tiny doses —all—sufficient in croup, cougs, colds and ordinary fevers—are too small and slow in battling with the grip germ. Get the 50c or $1.00 bottle and take HALF A TEASPOONFUL in hot water every THREE HOURS; and be sure to follow up the treatment for two weeks after you think you are well, to annihilate the last remaining germ in lungs, kidneys and other organ and prevent the evil after effects.

## SOCIAL AND PERSONAL

### Pleasant and Unique Surprise.

A very pleasant surprise was tendered Miss Blanche Davis Tuesday night on the eve of her departure for the home of her parents in Salt Lake City. About 25 friends escorted her to the station where she boarded train No. 15 and each presented her with a little token of esteem and friendship. The surprise was a very happy one and of a nature so unusual as to make it long remembered. Miss Davis has been visiting with her brother Wm. Davis of East High street and other friends and relatives in Ohio and Pennsylvania.

### Routine Business Only.

No special business came up for the consideration of the Business Association at the regular meeting Tuesday night, only the regular routine claiming attention.

### Picnicked at Lake Park.

Members of the Wednesday Afternoon Fancy Work club, 16 in number, held their annual picnic at Lake park Wednesday.

Miss Grace Kyle, operator at the Bell telephone exchange, is taking a two weeks' vacation from her duties. In company with her sister, Miss Lyda Kyle, she left Wednesday morning for Rochester, Pa., to visit relatives for a few days.

Misses Jane and Blanche Fulton are spending a two weeks' vacation with relatives and friends in Pittsburg and Mt. Pleasant, Pa.

Miss Bessie Robinson will leave Thursday morning for Cleveland, where she will remain for several months.

Alonzo Kelley of this city is visiting at the home of Mr. and Mrs. James Castles, Athens, Ohio.

Quite a number of Salem people are attending the campmeeting at Sebring this week.

Mrs. Jesse Sharpnack has gone to Dixon, Tenn., where she will make her home.

George C. Wire of Warren spent Wednesday in the city on business.

Lawrence Slack of Alliance is the guest of his parents in this city.

## RAILWAY DIVIDENDS CUT ABOUT 39 PER CENT

In the first six months of the present year 10 railroads and 37 miscellaneous companies, with a total capital stock outstanding of $1,072,776,723, have reduced or passed their dividends from those of a year ago. These companies have paid to stockholders in dividends $26,027,997 from January to July 1, as compared with $42,751,552 paid out during the corresponding period of 1907, which is a reduction of $16,723,555, or about 39 per cent.

In this connection it will be of interest to note that the interstate commerce commission, in its latest report, places the total capital stock of all railroads in the United States at about $7,000,000,000, and that dividend payments for the year on the same are about $300,000,000, so that the reduction of $6,000,000 in the railroad semi-annual dividends is only 4 per cent of the annual aggregate railroad dividend disbursement, and affects only 10 per cent of the total capital invested in railroad stocks.

### Bicycle Was Stolen

Dr. Alex Cruikshank suffered the loss of his Mead bicycle on Tuesday evening, and the supposition is that it was taken by one of the bicycle lifters who seem to be working in this vicinity. Dr. Cruikshank had gone into the office of Dr. James Anderson for a few minutes and left the wheel standing at the curb in front of his office. On his return it had disappeared, and no trace of it has been found.

### Reese Was Appreciative

James Reese, who recently suffered a sunstroke in Salem and has been looked after by the patrol department and attended by Dr. Barckhoff since Sunday, was taken to the infirmary on Tuesday in a very weak condition. Before leaving he expressed deep appreciation of the kindness accorded him by the attaches of City hall in taking care of him.

### Agricultural Statistics

Lisbon, July 15.—The agricultural statistics of Columbiana county for the year ending June 1, as brought in by the assessors, is prepared in the county auditor's office, and shows interesting figures, as follows: Acres of land owned in the county, 246,807; horses, 7,171; cattle, 16,784; sheep, 25,529; hogs, 9,460; pounds wool shorn, 142,715.

### Post Cards From Phillips.

Local Elks are in receipt of post cards from C. E. Phillips, who is representing Salem lodge No. 305 at the grand lodge meeting in Dallas this week. Chief Turner received a very handsome silk "Hello, Bill" souvenir from the convention. The next grand lodge meeting will be held at Los Angeles, Cal.

### County Got the Money.

Lisbon, July 15.—The county treasury was enriched yesterday $454.96 by W. H. Johnson, administrator of the estate of Eliza A. McIntosh, late of Wayne township. The deceased died in 1891 and left no heirs.

James Bumbaugh of Louisville, Ky., is visiting with his parents in this city.

The Cleopatra Needle Work club is holding a basket picnic at Lake Park.

## APPLE PIE OF BOYHOOD DAYS.

### Description of Dainty That Will Set Many Mouths Watering.

Let some properly informed Puritaness tell of apple pie. We speak not of hanging and footwalls of dough ledged with apple sauce, not of latticed tarts nor open faced counterfeits of the real. We speak of what lingers as a sweet dream half forgot, a once radiant vision dimmed by time, the memory of a childhood ecstasy. This perfection of pie was bottomed with a crust which in the finished product was saturated to the point of precipitation with the rich juices of its inwards.

But those inwards! Pared and cored greenings, sliced and laid in orderly circles, each decked in the making with a delightful little dab of fresh butter, sprinkled with sugar, each particular grain of which came through the baking gladsome, sparkling, individual gems. There was, we think, a dusting of nutmeg and perhaps with some other rich spices, the whole covered with a top crust which was not crust, but a fluffy layer of petals of yellow rosebuds.

This, it is seen, is but an impressionist sketch. Let the Puritaness willing for so great a cause to endure publicity set down for print the just and exact proportions of each ingredient and all such requisite particulars as ignorance may need to know to produce the perfect pie here faintly though reverently suggested.—New York Sun.

## BY THE LIGHT OF SPLINTERS.

### Religious Meeting Under Peculiar Circumstances a Great Success.

Elder J. W. Cook, in his "Forty-Five Years a Minister," relates this incident: "I remember one time up in Clair county, Missouri, I arrived at my appointment just at night. It was raining, but the people turned out just the same. The schoolhouse was of logs, and inside it was dark as a dark night could make it. A brother said: 'Will someone please light the candle?' But there was no candle to light, no grease, no oil of any kind. The little cabin was crowded and the rain was pouring down. It was a good half mile to the nearest house where a candle might be procured. But a resourceful brother relieved the situation thus: 'We must have a meetin'; that's sartin. The boy's traveled 'way over here to preach for us, and he's goin' to do it. Now we'll tear off some planks from the platform and light 'em and take turn about holdin' 'em so he can see his Bible. I got matches.' That meeting under the flickering splinter light was an astonishing success."

### Diamonds Burn Like Coal.

The jeweler, at closing time, was putting his diamonds in a huge safe.

"But why do you bother to do that when two watchmen walk the shop all night long?"

"On account of fire," the jeweler replied. "Diamonds are nothing but coal—carbon—they burn beautifully. Their hardness makes us think them indestructible, but, as a matter of fact, a fire of diamonds would be the briskest, prettiest thing in the world. Put a handful of diamonds on a plate and set a light to them. They will burn with a hard, gemlike flame till nothing is left. There will be no smoke, no soot and at the end the plate will be as clean as though just washed—not the slightest particle even of ash will remain."

### Last Words of John Quincy Adams.

The dramatic death of John Quincy Adams on the floor of the house of congress gave the writers of his day an opportunity for putting fine words in his mouth and rearing another historic hero. At that time Dr. W. A. Newell was a member of congress from New Jersey, and subsequently became governor of his state. He was the first to reach the stricken man as he sank to the floor.

Dr. Newell later in life insisted that Adams' last words, spoken to him, were:

"This is the end; quick, a little brandy."

Which doesn't accord with popular histories of the event by a long shot.

### Had One Drawback.

"My!" exclaimed little Billy, as he gazed at the lithograph, "I'd like to be a giraffe. Just think how easily you could 'rubber' over the basefall fence."

"That's right," replied Tommy, "but there is another time when you wouldn't want to have a neck like a giraffe."

"When is that?"

"Why, in the mornings when your ma begins to scrub your neck with soap and water."

### Self-Accusing.

"I don't believe you know much about farming," said the patronizing man who had just settled in the neighborhood.

"No," answered Mr. Corntossel, "I kind o' think I don't myself. A man that knew much about farming wouldn't have bought a farm anywhere around here in the first place."—Exchange.

### The Effect Spoiled.

"Refused you? Surprising! Did you walk with her in the moonlight?"

"Yes."

"And vow you would gladly die for her?"

"I did; but just then some one yelled 'Hands up!' and I ran three blocks before her mischievous young brother caught me and told me it was only a joke."

## SPLENDID LOCATION THIS FOR AUTOMOBILE WORKS

About the first thing a stranger in Salem asks, after getting a line on our local industries, is: "Where is the river or lake?" They naturally assume that a boat factory, particularly of the capacity and fame of the Mullins plant, must be located on water, and their surprise is unbounded in find that Salem's waterways consist of the county ditch and Champaigne creek (nee Buttermilk run).

In light of the success that has been attained by the W. H. Mullins company in the manufacture of their pressed steel boats in an inland town, it is often predicted that an automobile factory producing a moderate priced but reliable auto would make good herein the heart of the best touring section of the country. Salem is already furnishing practically all the pressed steel bodies and tonneaus for half a dozen leading automobile manufacturers, some of the best known two and four cycle gasoline engine experts are working here, and local plants are turning out the highest grade of forgings, brass work, etc.

Salem capital is readily interested in prospective good things in the manufacturing line when approached by outside parties desiring sites, bonuses and concessions. If local investors were to look into the automobile proposition carefully Salem might, by next season at least, have another strictly home-grown industry in a new line, and one for the products of which there is an annually increasing demand.

### SMALL BEGINNINGS SHOW BIG RESULTS.

Many great enterprises begin in a small way. Many a successful advertiser has begun by using classified advertisements in a modest way. These brought good returns, which enabled the business to be developed, and eventually larger advertisements were profitably used. Intelligent use of the little ads. in The Salem News either by advertiser or reader will prove profitable.

## EAST FAIRFIELD

East Fairfield, July 14.—Dr. Louthan of Rogers was called to East Fairfield this week by the illness of the little son of Mr. and Mrs. Charles Merver.

Miss Lula Marlnee suffered a sunstroke while in the berry patch last Thursday afternoon. She fell to the ground twice, and had to be taken to her home, where she is in a serious condition.

Mrs. Aaron Chamberlain has returned to her home in Canton after spending a week with her sister, Mrs. Levi Dickey, here.

The festival given by the Ladies' Aid society last Saturday evening on the school lawn was a grand success and was largely attended. The music was furnished by the Rogers band.

Mr. and Mrs. Ed Dyke are the happy parents of a ten-pound daughter.

Mrs. John Bryerly and two children of Shipping Port spent a few days with Mr. and Mrs. Babel.

McKinley Rosenbaum of Rogers accidentally shot himself through the leg while playing with a revolver.

Mr. and Mrs. Fred Dickey attended the carnival at Lisbon Saturday.

During the wind and electrical storm Sunday afternoon a barn owned by Ed Johnson was struck and badly damaged.

John Borton and wife of New Waterford were guests of Mrs. Borton's daughter, Mrs. K. Crawford, of Pleasant Valley, Sunday.

Mr. and Mrs. Charles Albright spent Sunday as guests of their parents, Mr. and Mrs. Hamilton Dickey, of Rogers.

### Much Profit in Cement.

The manufacture of cement is contributing largely to the earnings of the United States Steel corporation, as the following table giving the barrals of Portland cement produced by the corporation over a series of years will show:

| Year. | Barrels. |
|---|---|
| 1907 | 2,129,700 |
| 1906 | 2,076,000 |
| 1905 | 1,735,343 |
| 1904 | 539,951 |
| 1903 | 644,286 |
| 1902 | 486,357 |

The use of cement in connection with the steel industry was the main inducement for the steel corporation to engage in the cement manufacturing business on a large scale.

## NEARBY NEWS IN BRIEF

During the severe storm Sunday about 150 fine sugar maple trees near Latimer, in Trumbull county, were uprooted or otherwise destroyed.

Elizabeth Redarsky, aged 2 years, of Youngstown, died in the City hospital as a result of being burned when she set her clothes on fire while playing with matches.

Members of East Liverpool's board of public service are of the opinion that the ruins of the old Brunt opera house building should be razed, as they are jeopardizing human life.

When the Republican national and state campaigns are opened in Youngstown the streets may be all torn up unless work is started soon on improvements which are to be made.

A general resumption of industrial operations was witnessed in Chester, W. Va. this week. Work was resumed at the tin mill and also the Taylor, Smith & Taylor pottery. The Edwin M. Knowles China Co. has been working for the past week.

Two rural free delivery routes out of East Liverpool are likely to be discontinued unless immediate steps are taken to improve the roads over which the carriers must travel These routes supply a large and populous farming territory.. One runs from the city to Clarkson and vicinity, and the other, starting in the East End, covers Calcutta and other adjacent territory.

S .W. Perry, a farm hand living near Mahoningtown, was arrested Saturday night by Detective Fromm of the B. & O. police department, and is suspected of having caused the recent wrec on the Erie railroad when Engineer Simons was killed. It is said that Perry at one time worked for the Erie road, and is familiar with the workings of the switches and rail locks.

Some time Sunday night unknown parties entered the barn of Rev. A. B. Williams, near West Farmington, and deseroyed several buggies and sets of harness. Going to the opposite side of the barn in which the horses were kept, the fiends cut the tail off a fine driving horse, leaving the animal to bleed to death. Rev. Mr. Williams knows of no reason why he should be made the object of such work unless someone has taken offense at something he has said in church. He is a great temperance worker, and this may have been the reason for the deeds.

## CONTRACT FOR SCHOOL HOUSE AT SEBRING LET

Sebring, July 15.—The contract for building the new eight-room school house and also the contract for plumbing and heating the same were let at a recent meeting of the school board. The contract for the building was awarded to McHenry of East Liverpool for $19,902 and the plumbing and heating to the Justus Plumbing Co. of Massillon for $2,808. Mr. McHenry at once sub-let the excavating and brick work to William Miller of Sebring and the painting to George Windle of Sebring. The face brick for the building will be Kitanning brick and the rough brick, Alliance brick. Work upon the building has already been started.

## NO OFFICIAL HOME FOR NEW DEPARTMENT

Columbus, July 15.—B. B. Seymour of Ashtabula, the new state bank superintendent, arrived at the state capital Monday and found himself without an official home. This was something of a surprise to him. He made a careful search of the state house to ascertain if there was not some room unoccupied, but found that every nook and cranny had been preempted. He appealed to the adjutant general, the custodian of the building, for quarters, but that official advised him that there was none to be had. Accompanied by a member of the governor's office force, the rounds of some of the office buildings adjacent to the capitol were visited, and a suite of rooms will be engaged in one of these. Mr. Seymour stated to the representative of this paper that soon after he gets his office opened and things started he will visit other states that have banking departments and inspect their systems. New York, Connecticut, Massachusetts anl Michigan have state banking departments, and he will probably visit all these states. He stated that he had already received a large number of applications for positions, but that for the present he would not do anything in the way of making appointments. The meager appropriation made by the legislature will limit the appoinments to year to a small office force and two examiners.

## COURT ENTRIES

Lisbon, July 15.—The sale was confirmed and the deed ordered and a fee of $60 alolwed the plaintiff's counsel, the fee attached as costs, in the Lisbon case of Abbie J. Newcomer vs Jacob Spentz et al.

A decree for divorce was granted in the case of Nettie Risher vs. Wm Risher, both of East Liverpool, the plaintiff suing on the grounds of willful absence.

A temporary restraining order was allowed by the court in the case of Ona and A. W. Scott vs. P. M. Smith. A bond of $100 was given by the plaintiff.

### Pay Day Did Not Arrive

Sellers of raffle tickets and lead pencil merchants need not bother the boys on the local police and patrol force for a day or so for they are stoney broke. Wednesday was supposed to have been payday on the force but the failure to get the appropriation ordinance through council Tuesday night will hold up the salaries until the next regular meeting of council.

## DO YOU GET UP WITH A LAME BACK?

**Kidney Trouble Makes You Miserable.**

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

## AMERICANS WIN NEW HONORS

### They Capture Medals in the Olympic Games and Astonish Foreign Athletes.

London, July 15.—America and Great Britain captured most of the laurels on Tuesday in the Olympic sports. Twice the stars and stripes fluttered to the top of the staff in the center of the arena and the American enthusiasts, who monopolized a section of the stadium, waved their flags and broke out in cheers which, in a smaller field, would have been deafening. The honors were nearly even, for of the four events finished the United States and the United Kingdom each won two gold medals. Great Britain, however, took three silver medals, while America got only one. Canada, Australia, Great Britain and Belgium each obtained a bronze medal.

The Yankees had the hammer throw to themselves, as had been expected, and the performance of John J. Flanagan of the Irish-American Athletic club, in breaking the Olympic record with the hammer and the almost equally good record made by M. J. McGrath of the New York Athletic club, were eye-openers to the foreigners. M. W. Sheppard of the Irish-American Athletic club, however, did more spectacular work and aroused a greater degree of enthusiasm by crossing the tape ahead of his English rivals in a dashing finish to the 1,500 metre run. This the Englishmen had counted on for Wilson or Hallows, no prophets conceding America better than third place. To add to the satisfaction of the Americans the judges announced that George W. Gaidzik of the Chicago Athletic association had done the best work in the fancy diving.

The British pedestrians had their own way in the 3,500 metre walk; there were no American competitors in this event.

### Freight Rates to Be Advanced.

New York, July 15.—As a forerunner of the general increase of about 10 per cent in freight rates to be made by the eastern trunk lines in the near future, the New York Central railroad has filed with the interstate commerce commission a new rate on sugar and coffee between New York and Chicago. This means an 11 per cent increase in the present freight rate on coffee between the two cities, and 7 2-3 per cent increase in the rate on sugar.

### Track Laying Is Resumed.

Sharon, Pa., July 15.—The Bessemer Railroad Co. has resumed construction of its double track north of Mercer Junction which was abandoned last fall. Steel ties are being used in place of wood. It is expected that by next fall the company will have completed a double track to Conneaut Harbor.

## FOUGHT SHERIFF AND SUICIDED

### TWO BROTHERS GAVE BATTLE ON A MICHIGAN FARM TO OFFICERS OF THE LAW.

### WERE THOUGHT TO BE INSANE

### One of the Brothers Had Without Any Known Cause Shot and Fatally Wounded a Peddler—A Sensational Story.

Benton Harbor, Mich., July 15.—Both August Gross, who on Monday without known cause shot and fatally wounded an inoffensive meat peddler named James Kirk, and his younger brother, Fred Gross, suicided after a brief battle with Sheriff Tennant and a posse of seven men who went to the Gross home Tuesday to arrest August Gross. None of the officers was injured. The Gross brothers are both supposed to have been insane.

After the shooting Kirk barricaded hemself in his farmhouse 12 miles from here and through the night exchanged occasional shots with the crowd of farmers and deputies who were guarding the premises to prevent his escape. His younger brother, Fred, joined the crazed man in the defense of the house and the aged mother of the two men was also in the house throughout the battle with the officers. The officers found her almost prostrated with terror when they broke into the house after the battle.

The posse drove to the Gross farm in two automobiles from Benton Harbor. Shortly before their arrival the Gross brothers had rushed from the house and taken positions with their guns near the front fence. After about 15 shots had been fired at the officers, who were replying with rifles and shotguns, August left his cover and ran for the house. Fred was wounded through the leg and when he found that he was unable to follow fired a bullet through his own head, dying instantly.

Expecting August to open fire momentarily, the posse closed in on the house, entered it and found the crazed man dead on his own bed. A charge from a shotgun had penetrated his heart.

August Gross was a well educated, bright man. Worry over his failure to get financial returns from a sight which he had invented for military rifles is said to have unsettled his mind, although it is declared that insanity is hereditary in the family.

### Dynamiters Destroyed Railway Track

Birmingham, Ala., July 15.—The track of the Republic Iron and Steel Co. between the mines at Sayreton and furnaces at Thomas was blown up with dynamite Tuesday. Notice was posted by the Tennessee company at Wylam that houses of the company occupied by union men must be vacated by July 16.

### Woman Was Run Down by a Car.

Berea, O., July 15.—Mrs. Gottlieb Katz, aged 70, was struck and probably fatally injured Tuesday by a car on the Cleveland, Southwestern & Columbus. She was rolled under the car and suffered a broken arm and leg and internal injuries. She was taken to a hospital in Cleveland.

### Stretched Hemp.

New Castle, Pa., July 15.—Rosario Serge, 18 years old, was hanged here Tuesday for the murder of Antonia Bonti at Hillsville June 8, 1907. Serge maintained until the last he had killed Bonti in self-defense.

### A Battle in Chinatown.

Philadelphia, July 15.—One Chinaman was killed and two white men were injured Tuesday in a pistol fight in Chinatown. The fight was the result of a quarrel among a group of Chinese.

## THE CITY'S SNAIL SERVICE.

### The Slower the Work the Steadier the Job Has Been the Rule in the Public Works of Boston.

In its latest report to the mayor the finance commission deals with one of the most flagrant abuses in municipal service that has yet come before it. The item of labor is about the heaviest that has to be met by city appropriation, and a great deal depends upon its efficiency or inefficiency. It is a matter of common observation that the city employees are time killers. The sluggish pace at which they perform their labors is a popular joke, but it is no joke to those who pay the taxes and for every dollar contributed receive but the fraction of its value in service. Any one watching the performance of a gang of city men in any particular line of work can be convinced that we are supporting an army of drones. The principle by which they are governed is not a fair day's work for a fair day's pay, but the smallest amount of work that can be accomplished without endangering a position.

Unfortunately positions have been only too secure under recent conditions, because they have not depended upon values, but upon pull. It has been even probable during the last few years that a man was more in danger of losing his job from being too active than from being too inert. Activity endangers the opportunities of a larger number of men. The more the work can be made to hold out the greater the number of places for the benefit of the political contingent.

We have not needed an investigation to prove all this to the average citizen. The proof is patent wherever city work is carried on, but the finance commission has rendered a service by showing through comparison with the work of private corporations to what extent approximately the city is being defrauded and to what extent it has lost ground in efficiency during the past thirty years. Under the system of fewer hours there has been more than a proportional loss in accomplishment. This is not only demoralizing to all holding city jobs, but it is embarrassing to the claim of labor organizations that as much work could be done in an eight hour day as in one of nine or ten hours. Thus they are not only cheating the city, but they are doing an injustice to the great industrial body for whose good faith they are in no small degree responsible.

The figures furnished by the commission are eloquent. They show that in a sewer department job the highest average number of bricks laid per hour was seventy-eight, whereas the lowest average upon metropolitan work was 165 and the highest 384, or nearly five times as much in the latter case. If this discrepancy exists in skilled labor, where some pride of calling may be supposed to exist, to even a greater extent is it likely to be found in those inferior lines where the deficiencies of a single worker are concealed in those of the whole number.—Boston Transcript.

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acrid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

## FOR INDIVIDUAL CONTRIBUTIONS TO DEMOCRATIC CAMPAIGN FUND.

## PARTY LEADERS MEET BRYAN

### Chairman of the National Committee Will Be Chosen at a MBeeting to Be Held in Chicago on July 25.

Lincoln, Neb., July 15.—The appointment of a sub-committee of 11 to meet at Chicago on July 25 to name a chairman of the Democratic national committee and the adoption of a resolution providing for making public campaign contributions were the principal accomplishments of the national committee meeting with W. J. Bryan and J. W. Kern at "Fairview" on Tuesday. Democrats the country over were called upon to form clubs immediately to aid the campaign work.

It can be stated on authority that had the whole committee acted, National Committeeman John H. Atwood of Leavenworth, Kan., in all probability would have been made campaign manager. Sentiment in that direction formed quite generally among the committeemen during the trip here from Denver. Mr. Atwood is a lawyer and business man of undoubted standing, and he wants the position. He was not at Fairview on Tuesday, a fact which is attributed to his belief that the chairmanship would be tendered him.

That action was not taken was due to Mr. Bryan. The latter has no favorite for the position, nor was it antagonism to any one which formed the motive of his action.

Mr. Bryan suggested the appointment of the sub-committee and declared that upon it there should be no man who was either a candidate himself, or had a candidate for the campaign leadership.

This being put in the form of a motion by Josephus Daniels of North Carolina, Chairman Taggart appointed the following, his own membership being provided for in the resolution:

Taggart, Indiana (chairman); Hall, Nebraska.; Mack, New York; Osborne, Wyoming; Green, Rhode Island; Ryan, Wisconsin; Daniels, North Carolina; Wade, Iowa; Tomlinson, Alabama; Cole, California; Brady, Oklahoma. Daniels was made secretary.

The presence on the sub-committee of Mr. Ryan is an assurance that he is no longer considered a candidate. Inquiry among members of the sub-committee failed to elicit leanings toward any candidate, but the fact that the appointment has been left in their hands is not believed to diminish the chances of Mr. Atwood.

D. J. Campau of Michigan is no longer being considered; Tom L. Johnson won't have it; Urey Woodson would prefer not to be considered, and Ollie James believes his greatest usefulness is on the stump. This situation for the present at least leaves the subcommittee with but one candidate to consider, namely, Mr. Atwood. The only whisper heard against Mr. Atwood was the fact that his eminence in the legal profession may have brought him into closer connection with corporations than would be consistent in a campaign against "corporate greed and predatory wealth."

The following resolution was adopted:

"Resolved, that the Democratic national committee in pursuance of the pledge given in the national platform recently adopted at Denver announces that it will accept no contributions whatever from corporations; that it will accept no individual contributions above 10,000, and that it will make publication before the election of all individual contributions above $100, contributions received before October 15 being published on or before that date, and contributions received after that date being published upon the date they are received, and that no contribution above $100 shall be accepted within three days of the election."

The official notification of Mr. Bryan will be at his home in Lincoln on August 12. Mr. Kern will be notified at Indianapolis at a date to be determined upon later.

### Four Candidates Want the Honor.

New York, July 15.—Leaders of the Independence party announced last night that the national convention of the party, to be held in Chicago on July 27, will complete its business in two days. Indications point to an active contest for the nomination for president. Four candidates are now in the field.

### Must Not Have False Teeth.

Washington, July 15.—That false teeth are a barrier for applicants for positions in the police and fire departments in the District of Columbia is proclaimed in an order issued by District Commissioner West.

### Two People Drowned.

Muskegon, Mich., July 15.—Dr. F. H. Montgomery of 100 State street, Chicago, and his stenographer, Mrs Frances Head, were drowned in White lake Tuesday when their sailboat capsized.

### For Voters Not Fully Understanding Proposed Tax Amendment.

The proposed taxation amendment to the constitution has safely passed both houses of the Ohio legislature, and will now be submitted to the people at the coming November election. There will be no excuse for any voter not understanding it fully, and voting upon it intelligently, for there is ample time for every one to study it and to understand it.

Even if the amendment to the constitution carries, it does not give to the state a new tax law. It only enables the legislature to pass a new law. At this time the constitution fixes the classification of property for taxation, or rather it fails to fix it, but states that the legislature may not make any classification. The section of the constitution relating to taxes is more than 50 years old, and is, of course, obsolete at this time. However wise it may have been in its day, it now is a detriment to the state.

The amendment to be voted on this fall is, in substance, this: Are you in favor of the legislature enacting new taxation laws?

Those who object to the proposed amendment, base their whole argument on the statement, namely, that taxation is too important a subject to leave to the legislature. These opponents of the amendment claim, and with some reason, that as a rule legislatures are corrupt; that to give a legislature unlimited power to classify property and make laws governing its taxation, is to place in the hands of a dangerous body a power so great that the incentive to become grafters could not or would not be resisted by them.

But such argument does not seem sound. To state that the voters of this state can not or will not elect a legislature that is above grafting is to accuse the voters of the state—all of the men of the state—of being incompetent to carry on a republican form of government.

If we have not sense enough to elect honest, intelligent men to office, if we do not know enough to select legislators who will represent us at Columbus, then we ought to surrender our charter of government, and hire a czar to rule us. To admit that we can not prevent the legislature from passing laws inimical to the interests of the people who elect them is to admit that we are a nation of fools or scoundrels.

We have greater faith in mankind than that. We believe that the voters of this state are competent to elect representatives who will represent them, and, believing so, one is bound to be in favor of the new amendment to the constitution, for it only gives the legislature the right to make new laws governing taxation matters.—Editorial: Dayton News.

### To Aid City Working Girls.

Miss Mary Boyle O'Reilly, daughter of John Boyle O'Reilly, as president of the St. Elizabeth guild of Boston, is making an effort to ameliorate the conditions of the working girls in that city. As the result of personal investigations, Miss O'Reilly estimates that there are about 75,000 lodgers in the city, the majority of them working girls, young and inexperienced, and with no protection against the complexities of city life. As a cure for the many evils of the public lodging houses Miss O'Reilly believes that all such houses should be controlled by a municipal agency and all should be under the supervision of a corps of competent women inspectors.

### Swallowed a Lion.

The case of a bird swallowing a lion whole—the latter being afterward rescued alive—is what happened at the Earl's Court zoo in London lately. The bird was a great pelican, one of the kind with a pouch beneath his beak wherein is stored the swallowed food before digesting. The lion was a tiny, wriggling cub, whose pink skin showed in wrinkles through his tawny down. The pelican looked at the baby lion, seized him and gulped him down. But a keeper happened to see the act and three men pounced on the bird held it in their arms and forced open the mighty beak, while one of them extricated the cub from the pouch.

### Court Reduced Tax Assessment.

Scranton, Pa., July 14.—The contest of the anthracite coal companies against the commissioners of Lackawanna county raising coal land assessments for taxation purposes $40,000,000 was disposed of Monday by the Lackawanna county court, which reduced the assessment to $60 per foot acre, making the total increase approximately $18,000,000.

"E. C. DeWitt & Co., Chicago, Ill.—Gentlemen—In 1897 I had a disease of the stomach and bowels. In the spring of 1902 I bought a bottle of Kodol and the benefit I received all the gold in Georgia could not buy. May you live long and prosper. Yours very truly, C. N. Cornell, Roding, Ga., August 27, 1906." Sold by Frank F. Trimble.

### Indicted for Conspiracy.

Philadelphia, July 14.—True bills of indictment charging consipracy in making, printing and circulating false financial statements of the Standard Title and Trust Co. of this city were returned by the grand jury here Monday against Homer L. Castle of Pittsburg, a former Prohibition candidate for governor of Pennsylvania, and his associates in the promotion of the trust company, which never opened for business.

### School Commissioner Lecturing.

Columbus, July 15.—State School Commissioner E. A. Jones is delivering a series of lectures to the summer schools of the state. He speaks on the educational outlook in Ohio, the state school laws and the work of Luther Burbank ,the famous California botanist, who has solved the problem of producing beautiful flowers from even the coarsest things that grow in the fields. Next Monday he speaks at Mt. Union college, Alliance, and the following Friday he will speak at Miami university at Oxford. These lectures will take up about two weeks of his time, and then he will begin his visitation of the teachers' institutes of the state, covering a period of four weeks.

### Husband Absent; Asks Divorce.

Lisbon, July 15.—Edna Schuch has entered divorce proceedings against her husband, John Schuch, charging willful absence. They were married in Germany in 1904 and have no children. They came to this country a few years ago and located in Salem, and a short time after the husband left home and has not been seen or heard of since. The court ordered that service on the defendant by publication be made.

### Hoffman Re-arrested.

Chief Turner returned Tuesday evening from Warren, where he was attending the trial of Wm. Hoffman, who was arrested on a charge of horse stealing. He was discharged and rearrested charged with obtaining property under false pretenses. He was found not guilty of the second charge, and is now trying to replevin the team of ponies which he traded. Attorney K. L. Cobourn is conducting the case.

### Putting Up Another Guy Wire.

The Y. & O. R. is putting up another guy wire on Chestnut street to replace the one destroyed Monday when lightning struck the Trimble block. It will be but temporary, as there seems to be some different arrangement necessary in order to eliminate a repetition of the lightning endangering the building, by having it connected with the trolley wire.

### New Trial Refused.

Lisbon, July 15.—The motion for a new trial in the case of Byron S. Ambler vs. the Osborne Coal Co. has been overruled in common pleas court. Attorney McNab, for the plaintiff, argued that the evidence in the case was not proper. The McKinley coal mine near Lisbon is the property involved in the suit.

HOW IS YOUR STOMACH?

Easy Way to Strenghten It and Get Well.

A good digestive system, one that acts so that you do not know that you have a stomach, is God's birthright to every man—to every woman.

If digestion is weak, if foods turns into gas, if you suffer after eating, if you are sleepless, nervous and out of sorts—then the stomach is diseased, and prompt action should be taken.

W. A. Ennis, a well-known builder in Syracuse, tell an easy way to strengthen the stomach and get well when he writes: "Mi-o-na Stomach Tablets have done more for me in one week than all the doctors the two years I was under their care. Thanks to Mi-o-na, I can work once more, the first time in over a year."

It is an easy thing to strengthen the stomach and cure indigestion by using Mi-o-na. Get a 50-cent box from Bolger & French or M. S. Hawkins, with their guarantee to refund the money unless the remedy does all that is claimed for it.

## POTTERS FINISHING CONVENTION DUTIES

Atlantic City, July 15.—Indications are that the N. B. of O. P. convention will wind up its business Wednesday afternoon, thus making the present session the shortest in the history of the brotherhood.

The surprise of the day Tuesday was the announcement by Harry Hailes of Kokomo, Ind., that he would not be a candidate to succeed himself. It is conceded on all sides that President T. J. Duffy and Vice President Hutchins will be re-elected, and but few changes are expected in the vice presidents. President Duffy will be chosen as delegate to the American Federation of Labor.

An even 100 resolutions had been offered to the convention up to Tuesday night. Only a few remain to be considered, and these will be disposed of by noon today or shortly thereafter after which the election of officers will take place. A two and a half hour fight was precipitated Tuesday by the resolution introduced by the sanitary workers of Trenton providing that no employe of one branch of the trade could enter another except by becoming an apprentice and subjecting himself to all rules governing the local. The resolution was finally defeated.

The principal resolutions adopted Tuesday were:

1. Establishing Saturday half holidays, all plants to pay at noon on pay day. This affects the western potters exclusively.

2. Prohibiting sanitary foreman breaking defective ware without presser's knowledge.

3. Paying general ware price for packing sanitary battery jars and porous cups.

4. Permitting workers to hire or discharge help irrespective of sex.

5. Fixing 10 per cent as sufficient deposit for sanitary pressers desiring discharge papers.

6. Establishing uniform day wage scale of $5 for throwers and $4 for turners for throwing and turning lavatory legs and sanitary specialties.

7. Requesting firms to place water faucets on each floor of clay shops.

8. Providing better situation in clay shops, such as sweeping, whitewashing walls, etc.

9. Creating office of seventh vice president. (Due to the abolishing of the treasurership).

10. Limiting service of the president's appointees on the standing committee to one year.

### Greenisen Will Filed
